ABOUT ME

A final-year engineering student with a profound passion for web development. Equipped with hands-on experience and a solid academic foundation, I specialize in creating dynamic and user-centric web applications. I'm dedicated to pushing the boundaries of what's possible in the digital realm. As I prepare to transition from academia to the professional world, I'm excited to contribute my skills to innovative projects that make a meaningful impact.

EXPERIENCE

2011 - 2014

Web Developer Intern

Mumbai

Let's Get Cured!

Let's Get Cured provides education to people who want to learn ACUPUNCTURE or wants to get cured without any medicines.

- Collaborated with the web development team to design and develop the company's WordPress-based website,
- Utilized HTML, CSS, and JavaScript to implement interactive features, enhancing user engagement and interactivity

PROJECTS

Movie Suggestion

React | React Dom | Third-party API

- Leveraged a third-party API to fetch and display movie data dynamically
- Utilized React Responsive Carousel to showcase movie posters elegantly
- Created an interactive user interface that allows seamless exploration of movies

Weather Forecast Application

React | React Select Async Paginate | Third-party API

- Third-party API Integration: Fetched accurate weather data from a third-party Weather API
- Auto-suggest City Search: Utilized React Select Async Paginate for intuitive city name suggestions.
- Real-time Weather Updates: Displayed current weather conditions and 7-day forecasts for global cities

Full-Stack Website

MongoDB, Express.js, React, and Node.js

- Employed RESTful APIs to enable efficient communication between front-end and back-end
- Implemented a dynamic CRUD (Create, Read, Update, Delete) web application.
- Utilized the MERN (MongoDB, Express.js, React, Node.js) stack for end-to-end development

EDUCATION

B'Tech in Computer Science
NIIT University , Neemrana

Secondary School
Ryan International School, Indore
